## 👤 Profile

I am a dual US/UK citizen, a passionate, dedicated individual, experienced in high level Software Engineering. I work well independently and also in a team, collaborating and communicating effectively. With many years experience working to meet company requirements as well as those set by clients or vendors.

## 🧠 Skills

Javascript | TypeScript | Next | React | Remix | React-Native | HTML | CSS | Tailwind | Redux | Storybook | Jest | Git | Node | PostgreSQL | Leadership | Teamwork | Communication | Collaboration

## 📁 Professional Experience

04/2024 – 06/2024 London, UK	<b>Frontend Engineer, Borderless (Next, TypeScript, Tailwind, Storybook)</b> Part of a two person team building the new FE from scratch, where my work included: <ul style="list-style-type: none"><li>• Building out the initial three web app frontends in Next, with TS and TailwindCSS</li><li>• Setting up redux and global state management in the apps</li><li>• Building out the Storybook component library for reusable components</li><li>• Developing the frontend style-guide</li><li>• Using prettier and linting best practices to ensure conformity across the codebase</li></ul>
02/2022 – 09/2023 Australia	<b>Frontend Engineer, Fluidity (Next, Remix, React, Typescript, Storybook, Golang, GraphQL) 🌐</b> Fluidity rewards users for swapping, trading or transacting assets on the blockchain. A small team where my responsibilities included: <ul style="list-style-type: none"><li>• Improving the inherited beta codebase</li><li>• Leading, planning, architecting and building the current website from scratch (Next)</li><li>• Contributing to building the web3 app, working with a new framework (Remix)</li><li>• Built a component library using Storybook</li></ul>
2021 Barcelona, Spain	<b>Full-stack Engineer, My PLaces (React Native, Express, Node, PostgreSQL, Redux, Typescript)</b> A mobile app built entirely in TypeScript where users can set up a profile with their recommendations for various places around the world. A 5-member team where my responsibilities included: <ul style="list-style-type: none"><li>• Setting up a Node Express backend server</li><li>• Creating a relational database in postgresQL</li><li>• Working with the frontend team to build key features</li></ul>
02/2015 – 09/2019 Long Beach, California	<b>Design and Stress Engineer II, The Boeing Company</b> <ul style="list-style-type: none"><li>• Mathematical and Design research and analysis</li><li>• Computer Aided Design (CAD) and stress analysis software</li><li>• Working independently and in large groups with customers and vendors directly</li><li>• Presenting in large meetings of high importance with large financial implications</li></ul>
09/2019 – present	<b>International Travel (Solo), Backpacking/Digital Nomad</b> SE Asia, Americas and Central Europe - Radically developed my communication skills, became more independent and self driven, transcending cultural boundaries.

## 🎓 Education

2021 Barcelona, Spain	<b>Software Engineering, Codeworks</b> A software engineering, full-stack web development school. The program covers HTML, CSS, JavaScript, Node, Express, SQL and NoSQL databases, Angular, and React, DevOps, continuous deployment and systems architecture.
09/2011 – 07/2014 Manchester, UK	<b>Bachelor's Degree, Mechanical Engineering, 1st Class (Hons), The Manchester Metropolitan University</b> Graduated with Honours in BEng Mechanical Engineering, Achieving 1st class score (4.0 GPA). Accredited by both the IMechE and IET.
